Solve each Problem.

1) Bianca's team played 8 games of basketball. During those 8 games her team's score was: 90, 90, 81, 83, 77, 92, 81 and 81. Determine the mean, median, mode and range of the scores.

1. ___ ___ ___ ___

2. ___ ___ ___ ___

3. ___ ___ ___ ___

4. ___ ___ ___ ___

2) Luke was comparing the points the Bulls scored for different games. He recorded: 97, 92, 81, 92 and 98. Determine the mean, median, mode and range of the points scored.

5. ___ ___ ___ ___

3) At a school several teachers were holding a contest to see which class could earn the most trivia points. Mrs.William's class scored 72 points. Mr. Adams class earned 72 points. Mrs. Brown's class earned 71 and Mrs.Daniel's class earned 72. Determine the mean, median, mode and range of the number of points scored.

4) Haley was counting the number of people on different toys on the playground. She counted: 20, 13, 13, 13, 14, 3 and 1. Determine the mean, median, mode and range of the people.

5) Dave counted the number of times people sharpened their pencils in class for a week. He counted: 25, 25, 25, 12, 17 and 25. Determine the mean, median, mode and range of the numbers.

Solve each Problem.

1) Bianca's team played 8 games of basketball. During those 8 games her team's score was: 90, 90, 81, 83, 77, 92, 81 and 81. Determine the mean, median, mode and range of the scores.

1. _84.4_ **82   81   15**

2. **92   92   92   17**

2) Luke was comparing the points the Bulls scored for different games. He recorded: 97, 92, 81, 92 and 98. Determine the mean, median, mode and range of the points scored.

3. _71.8_ **72   72   1**

4. **11   13   13   19**

5. _21.5_ **25   25   13**
