

Toucans, with their big beaks and vibrant colors, are one of the most recognizable birds in the world! They have a unique appearance, with their oversized, colorful beak, black feathers, and bright eyes. But did you know that their beak, despite its size, is very light because it's hollow? And, they also have a small body and short, strong legs that make them excellent climbers!

Speaking of climbing, toucans love to hang out in the treetops of the rainforests in Central and South America. They make their home in the hollows of trees, often living in small groups or families. In these lush forests, they find their favorite food - fruits! But they also eat insects, eggs, and small animals when they can catch them.

Just like how toucans have a varied diet, their life cycle is equally interesting. After a pair of toucans build a nest, the female lays 2 to 4 eggs, which both parents take turns incubating. When the chicks hatch, they are blind and without feathers, but with the care of their parents, they grow quickly. In just a few weeks, these chicks are ready to leave the nest and explore the world!

Out in the world, toucans are pretty peaceful and don't have many enemies. Their bright colors blend in with the fruits and flowers of the rainforest, helping them hide from predators. Humans, however, pose a threat to them through habitat destruction and the pet trade. So, it's important that we learn about these amazing birds and do our best to protect them and their homes.

**Solve each problem.****Use the article to answer the question.**

- 1) Where do toucans make their homes?
 - A. In underground burrows.
 - B. In caves on rocky cliffs.
 - C. In the hollows of trees in the rainforests.
 - D. On the ground, in nests made of sticks.
- 2) What is the favorite food of toucans?
 - A. Seeds
 - B. Nectar from flowers
 - C. Insects
 - D. Fruits
- 3) When are toucan chicks ready to leave the nest and explore the world?
 - A. After a few days
 - B. After one year
 - C. In just a few weeks
 - D. After a few months
- 4) In what kind of groups do toucans usually live?
 - A. Small groups
 - B. In pairs
 - C. Alone
 - D. Large flocks
- 5) Who presides the incubation of the eggs?
 - A. Neither, they are left alone
 - B. Only the father
 - C. Both parents
 - D. Only the mother
- 6) How many eggs does a female toucan usually lay?
 - A. 5 to 10 eggs
 - B. Over 20 eggs
 - C. 1 egg
 - D. 2 to 4 eggs
- 7) What is the toucan's beak like?
 - A. It's oversized, dull and very heavy because it's solid.
 - B. It's small, dull and very heavy because it's solid.
 - C. It's small, colorful and very light because it's hollow.
 - D. It's oversized, colorful and very light because it's hollow.
- 8) What are some other foods that toucans eat?
 - A. Berries, bark, and flowers.
 - B. Fish, frogs, and turtles.
 - C. Insects, eggs, and small animals.
 - D. Seeds, nuts, and leaves.
- 9) Are toucans good climbers?
 - A. They can climb, but not very well.
 - B. No, they can't climb at all.
 - C. Yes, they are excellent climbers.
 - D. They can only climb small, thin branches.
- 10) Are toucan chicks born with feathers?
 - A. They have a few feathers, but they grow more after they're born.
 - B. Yes, they're born with feathers.
 - C. They're born with a full set of colorful feathers.
 - D. No, they're born without feathers.

- 11) Where do toucans usually live?
- A. In the plains
B. In the rainforests
C. In the desert
D. In the arctic

Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

- 12) "My bright colors make me easily noticeable to predators."
13) "Fruits are my favorite food!"
14) "Both, my partner and I take turns to incubate our eggs."
15) "I sometimes eat insects, eggs, and even small animals."
16) "My big beak may look heavy, but it's actually very light because it's hollow!"
17) "I am not good at climbing because of my big size."
18) "I only eat fruits."
19) "I love staying in the trees of rainforests. These colorful feathers really help me to blend in."
20) "My chicks can see and have feathers as soon as they hatch."
21) "My beak is very heavy."
22) "Not only can I fly, but my short, strong legs make me an excellent tree climber too!"
23) "I am a lonely bird; I do not like to live in groups or families."
24) "My family and I love to cozy up in the hollows of trees."
25) "My chicks grow up so fast! In just a few short weeks, they are ready to leave the nest."
26) "My chicks are ready to leave the nest immediately after being born."
27) "Once my mate and I build a nest, I lay 2 to 4 eggs."
28) "When my chicks hatch, they are blind and without feathers."
29) "We toucans do not eat small animals."
30) "We toucans love to live in the desert."

Determine if the statement is a fact or opinion based on the information in the article.

- 31) A female toucan generally lays between 2 to 4 eggs, and both parents help in incubating the eggs.
32) It's amazing to know that toucan chicks are ready to leave the nest after just a few weeks.
33) Toucans mainly eat fruits, but they can also eat insects, eggs, and small animals.
34) The fact that toucans can lay up to four eggs at a time is amazing.
35) Despite their large size, toucan's beaks are extremely light because they are hollow.
36) Toucans are cool because they live in rainforests, one of the most beautiful places on Earth.
37) When toucan chicks hatch, they are blind and without feathers.
38) Toucans typically reside in the rainforests of Central and South America.
39) It is fascinating to learn that toucans can eat not only fruits, but also insects and small animals.

35) Despite their large size, toucan's beaks are extremely light because they are hollow.
36) Toucans are cool because they live in rainforests, one of the most beautiful places on Earth.
37) When toucan chicks hatch, they are blind and without feathers.
38) Toucans typically reside in the rainforests of Central and South America.
39) It is fascinating to learn that toucans can eat not only fruits, but also insects and small animals.

40) Toucans look cute with their small bodies and big, colorful beaks.

Determine if the statement is true or false.

- 41) Female toucans can lay 4 eggs at one time.
- 42) Toucans are aggressive and have many enemies.
- 43) Toucans make their home in trees.
- 44) Toucans have a long, thin legs that make them excellent climbers.
- 45) Toucans primarily eat fruits and insects.
- 46) The beak of a toucan is heavy due to its size.
- 47) Toucans lay up to 14 eggs at one time.
- 48) When toucan chicks hatch, they immediately fly off to start their lives.
- 49) Toucans eat eggs and small animals.
- 50) Toucans are very strong climbers.

Determine which choice is the expanded form of the underlined contraction.

- 51) Toucans shouldn't be kept as pets because they need their natural habitat.
 - A. should
 - B. should not
 - C. could not
 - D. would not
- 52) It's important to protect toucans and their habitat from illegal pet trade.
 - A. It is
 - B. It has
 - C. It was
 - D. It does
- 53) Toucans don't just eat fruit, they also eat insects and small lizards.
 - A. does not
 - B. cannot
 - C. did not
 - D. do not
- 54) Toucans can't fly long distances and prefer to hop between trees.
 - A. cannot
 - B. can
 - C. do not
 - D. will not
- 55) When toucans lay eggs, they're in tree cavities.
 - A. there were
 - B. they were
 - C. they are
 - D. there are

Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

- 56) Toucans can fly, but they prefer to hop or walk on branches.
- 57) Do toucans fly?
- 58) Toucans eat fruits, insects, and even small reptiles.
- 59) Toucans live in the rainforests of South America.
- 60) How long can a toucan's beak grow?
- 61) What colors are toucans?
