

Use addition strategies with place value to solve.

Ex) $638 - 426 = \underline{212}$
 $8 - 6 = 2$
 $30 - 20 = 10$
 $600 - 400 = \underline{200}$
 212

1) $661 + 142 = \underline{803}$
 $1 + 2 = 3$
 $60 + 40 = 100$
 $600 + 100 = \underline{700}$
 803

2) $674 + 279 = \underline{953}$
 $4 + 9 = 13$
 $70 + 70 = 140$
 $600 + 200 = \underline{800}$
 953

3) $801 - 491 = \underline{310}$
 $1 - 1 = 0$
 $0 - 90 = -90$
 $800 - 400 = \underline{400}$
 310

4) $636 - 540 = \underline{96}$
 $6 - 0 = 6$
 $30 - 40 = -10$
 $600 - 500 = \underline{100}$
 96

5) $519 - 419 = \underline{100}$
 $9 - 9 = 0$
 $10 - 10 = 0$
 $500 - 400 = \underline{100}$
 100

6) $544 + 160 = \underline{704}$
 $4 + 0 = 4$
 $40 + 60 = 100$
 $500 + 100 = \underline{600}$
 704

7) $913 - 494 = \underline{419}$
 $3 - 4 = -1$
 $10 - 90 = -80$
 $900 - 400 = \underline{500}$
 419

8) $74 + 869 = \underline{943}$
 $4 + 9 = 13$
 $70 + 60 = 130$
 $0 + 800 = \underline{800}$
 943

9) $461 + 311 = \underline{772}$
 $1 + 1 = 2$
 $60 + 10 = 70$
 $400 + 300 = \underline{700}$
 772

10) $494 + 222 = \underline{716}$
 $4 + 2 = 6$
 $90 + 20 = 110$
 $400 + 200 = \underline{600}$
 716

11) $81 + 272 = \underline{353}$
 $1 + 2 = 3$
 $80 + 70 = 150$
 $0 + 200 = \underline{200}$
 353

Answers

- Ex. 212
 1. 803
 2. 953
 3. 310
 4. 96
 5. 100
 6. 704
 7. 419
 8. 943
 9. 772
 10. 716
 11. 353
