

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $23 \div 5 = 4 \text{ r } \underline{\hspace{2cm}}$

2) $91 \div 5 = 18 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $8,296 \div 2 = 4,148 \text{ r } \underline{\hspace{2cm}}$

4) $4,305 \div 10 = 430 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $67 \div 10 = 6 \text{ r } \underline{\hspace{2cm}}$

6) $76 \div 2 = 38 \text{ r } \underline{\hspace{2cm}}$

3. _____

4. _____

7) $627 \div 2 = 313 \text{ r } \underline{\hspace{2cm}}$

8) $524 \div 10 = 52 \text{ r } \underline{\hspace{2cm}}$

5. _____

6. _____

9) $9,566 \div 2 = 4,783 \text{ r } \underline{\hspace{2cm}}$

10) $4,364 \div 2 = 2,182 \text{ r } \underline{\hspace{2cm}}$

7. _____

8. _____

11) $8,152 \div 5 = 1,630 \text{ r } \underline{\hspace{2cm}}$

12) $7,473 \div 5 = 1,494 \text{ r } \underline{\hspace{2cm}}$

9. _____

10. _____

13) $76 \div 10 = 7 \text{ r } \underline{\hspace{2cm}}$

14) $56 \div 10 = 5 \text{ r } \underline{\hspace{2cm}}$

11. _____

12. _____

15) $30 \div 10 = 3 \text{ r } \underline{\hspace{2cm}}$

16) $379 \div 2 = 189 \text{ r } \underline{\hspace{2cm}}$

13. _____

14. _____

17) $498 \div 5 = 99 \text{ r } \underline{\hspace{2cm}}$

18) $8,833 \div 10 = 883 \text{ r } \underline{\hspace{2cm}}$

15. _____

16. _____

19) $83 \div 5 = 16 \text{ r } \underline{\hspace{2cm}}$

20) $72 \div 2 = 36 \text{ r } \underline{\hspace{2cm}}$

17. _____

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.
