

**Solve each problem.**

- 1) The table below show the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
June	120
July	184
August	168
September	147

In October they sold 7 times as many pounds of candy as they did in the previous 4 months combined. How many fewer pounds of candy did they sell in the previous 4 months compared to in October?

- 3) The table below show the number of employees each store has.

Store #	Employees
1	7
2	7
3	5
4	9
5	10

A new larger store is opening that will employ 6 times as many employees as all the other stores combined. How many fewer employees did the old stores have compared to the new store?

- 2) The table below show the points Paige scored on a video game each time she played.

Game #	Points Scored
1	179
2	152
3	181

After the first 3 games, she took a break and came back the next day and scored 4 times as many points as she had during all the previous games combined. How many more points did she score after her break?

- 4) The table below shows the number of books Katie read the first 3 months of school.

Month	Books Read
1	33
2	30
3	27

If Adam read 10 times as many books as Katie, how many more books did Adam read?

Answers

1. _____
2. _____
3. _____
4. _____
