

**Solve each problem.****Answers**

- 1) Paul had to wash three short sleeve shirts and eight long sleeve shirts before school. If he had only washed ten of them by the time school started, how many did he not wash?
- 2) Haley had fifteen math problems and sixteen science problems for homework. If she finished twelve of the problems at school, how many problems did she have to do for homework?
- 3) For Halloween Lana and her sister combined the candy they received. Lana had two pieces of candy while her sister had forty. If they ate thirty-eight pieces the first night, how many pieces do they have left?
- 4) A pet store had three siamese cats and forty-seven house cats. During a sale they sold thirty-six cats. How many cats do they have left?
- 5) Sarah bought two coloring books. One had forty-three pictures and the other had four. After one week she had already colored thirty-seven of the pictures. How many pictures does she still have to color?
- 6) While on vacation, Emily took thirty-eight pictures at the zoo and forty-eight at the museum. If she later deleted fifty-four of the pictures, how many pictures from her vacation did she still have?
- 7) The school cafeteria ordered forty-four red apples and nine green apples for student's lunches. But, if only thirty-two students wanted fruit, how many extra did the cafeteria end up with?
- 8) Olivia had twenty-eight music files and sixteen video files on her flash drive. If she deleted thirty-eight of the files, how many files were still on her flash drive?
- 9) Tiffany picked two tulips and forty-eight roses to make flower bouquets. If she only used twenty-four of the flowers though, how many extra flowers did Tiffany pick?
- 10) For the school bake sale Debby made pastries. She baked thirty cupcakes and thirty-one cookies. After the sale she had forty-one to take back home. How many pastries did she sell?
