

**Solve each problem.****Answers**

- 1) Debby was planting vegetables in her garden. She started with fifty-three seeds and planted twenty-nine of them in the big garden and in each of her small gardens put six seeds each. How many small gardens did Debby have?
- 2) For Halloween Janet received one hundred twelve pieces of candy. She ate forty-eight pieces then placed the rest into piles with eight in each pile. How many piles could she make?
- 3) Dave had seventy-one pieces of clothing to wash. He put seventeen of them in one load, but decided to split the rest into six equal loads. How many pieces of clothing could go in each of the small loads?
- 4) Roger was selling his old games. He started out with seventy-two but sold twenty-seven of them. He packed the rest up putting five games into each box. How many boxes did he have to use?
- 5) A store had eighty-three coloring books in stock. They ended up putting them on sale and getting rid of twenty-nine of them. They put the ones they still had onto shelves with nine on each shelf. How many shelves did they use?
- 6) A waiter had twenty-seven customers in his section. If eleven of them left and the rest of his tables had eight people at each table, how many tables did he have?
- 7) Paige had forty-nine files on her computer. She deleted thirty-one of them and put the rest into folders with nine files in each one. How many folders did Paige end up with?
- 8) The cafeteria had ninety-five apples. For lunch they handed out thirty-two to students and decided to use the rest to make pies. If each pie takes nine apples, how many pies could they make?
- 9) Robin's team won their baseball game and scored eighteen points total. If Robin scored eight of the points and everyone else scored two points each, how many players were on her team?
- 10) Tom is at the library helping put away books. There are seventy-three books to put away total but a librarian takes forty-nine of them and leaves Tom with the rest. If he can fit eight books on a shelf, how many shelves will he need?
